

## ULTIMATE PROTECTIVE PACKAGING FOR YOUR FRAGILE, VALUABLE AND IMPORTANT GOODS.

### BOARD BUBL

TOTAL PROTECTION FOR SURFBOARDS. Even the slightest dent or scratch can cause serious damage from water ingress, so it's vital to keep the whole board protected.

**BoardBUBL™ Wrapping** virtually eliminates transit damage – it protects the complete board, including the rails, tail and nose and is ideal for packaging single boards inside a shipping carton.

**BoardBUBL Tubes** are used to pack and protect up to 10 boards in a single shipping carton.

BoardBUBL also protects SUPs, snowboards, skateboards and windsurfers, and is completely safe for shipment by air. It is quick and simple to inflate, using a compressed air supply, and virtually indestructible. Perforations mean no cutting needed for perfectly sized packing.

BoardBUBL is inflated only when needed, dramatically reducing demand for warehouse space, and it can be reused many times – making it environmentally friendly and highly cost-effective.

### BOARDBUBL ITEM RANGE

SKU / Product code	BoardBUBL Product Description	Roll Length (m)
9R650-012BB	Tubes, (Tubes - 600mm long x 62mm diam), perforated between tubes	200

## BUBL TEC CUSTOM PACKAGING SOLUTIONS

Underpinning all our products is our core technology, BUBL Tec, with which we can quickly create and brand customised products; BoardBUBL is the result of collaboration with Unisurfity, a global surf school, and the perfect example of BUBL Tec in action.

Tell us about your packaging challenges - we'd love to hear from you.

## BUBL PACKAGING

Transit damage affects 1 in 14 of all on – line purchases.

Our packaging provides maximum protection for your products and we have solutions for everything from mobile phones and TVs to rare wines and antiques – with everything in between.

Our products replace cardboard boxes, padded envelopes, void – fill and bubble wrap; they are simple and quick to use, dramatically reducing packing time compared to traditional packaging (typically by more than three quarters) – and dramatically reducing cost.

BUBL Packaging is environmentally friendly; all materials used are recyclable and most of our products are reusable.

Put simply, with BUBL Packaging transit damage is effectively eliminated and you save time and money – without harming the environment.

## ABOUT US

BUBL Packaging was formed, as BUBL Bag, in 2015 to provide better protection for goods in transit; since then the company has grown significantly and several new product lines have been introduced, creating packaging solutions for virtually every product type.

Our vision is to lead the way in packaging that provides highly effective protection for valuable and fragile goods, and that is recyclable, reusable and sustainable.

# VALUABLE FRAGILE IMPORTANT

“ Switching to BUBL products has sped up our preparing of shipments, lightened the boxes we send out and made it easier for our customers to deal with our packaging. All this while offering our boards great protection. ”

**Tex Vertongen,**  
CFO/COO at FireWire Surfboards

“ After seeing an increase in damaged shipments last year we decided to switch over to using the revolutionary BoardBUBL packaging for all our surfboard shipments going forward. We've had a tremendous response to this new material... ”

**Margaret Yao Calvani,**  
General Manager Bing Surfboards
