

BUBL VOID

PROTECTIVE PACKAGING SOLUTIONS

ULTIMATE PROTECTIVE PACKAGING FOR YOUR FRAGILE, VALUABLE AND IMPORTANT GOODS

BUBL VOID

For quick, simple and cost-effective void fill protection for a wide range of everyday, durable goods BUBL Void is the perfect solution; easy to inflate, super lightweight and recyclable, the BUBL Void product range provides superb carton lining, quilting, cushioning, blocking and bracing.

With three variants, made from 20 micron HDPE, and in three sizes to suit most requirements, BUBL Void is inflated only when needed, saving valuable warehouse space; our fast BUBL Void Inflator is easy to set up and operate and ensures you can quickly produce the most appropriate void fill protection for your goods, on demand.

BUBL Void Cushions – air pillows for **maximum** void fill and product protection – available in 3 sizes

BUBL Void Tubes – for carton lining, interleaving, corner protection, wrapping, quilting, blocking and bracing – the ideal **balance** between void fill and protection.

BUBL Void Bubbles – for carton lining, interleaving, corner protection, wrapping, quilting, blocking and bracing – highly flexible, creating **minimal** void fill but still protecting and separating your products.

BUBL TEC CUSTOM PACKAGING SOLUTIONS

Underpinning all our products is our core technology, BUBL Tec, with which we can quickly create and brand custom products to match your needs.

BUBL PACKAGING

Transit damage affects 1 in 14 of all on-line purchases.

Our packaging provides highly effective protection for your products and we have solutions for everything from mobile phones and TVs to rare wines and antiques – with everything in between.

Our products are simple and quick to use, dramatically reducing packing time compared to traditional packaging (typically by more than three quarters) – and dramatically reducing cost.

BUBL Packaging is environmentally friendly; all materials used are recyclable and most of our products are reusable.

Put simply, with BUBL Packaging transit damage is effectively eliminated and you save time and money – without harming the environment.

ABOUT US

BUBL Packaging was formed, as BUBL Bag, in 2015 to provide better protection for goods in transit; since then the company has grown significantly and several new product lines have been introduced, creating packaging solutions for virtually every product type.

Our vision is to lead the way in packaging that provides highly effective protection for valuable and fragile goods, and that is recyclable, reusable and sustainable.
