

# BUBL PODS

INFLATABLE PROTECTIVE PACKAGING

## ULTIMATE PROTECTIVE PACKAGING FOR YOUR FRAGILE, VALUABLE AND IMPORTANT GOODS.

### BUBL PODS

BUBL Pods provide superior protection during transit because individual inflation chambers mould themselves around your products; they are quick and simple to use - just inflate and pop your product inside - hugely increasing productivity.

Warehouse costs are reduced as uninflated packaging takes up very little space; shipping costs are reduced as BUBL Pods are very light; product damage is virtually eliminated.

BUBL Pods improve packaging and production processes, reduce mess and minimise wastage.

### BUBL TEC CUSTOM PACKAGING SOLUTIONS

Underpinning all our products is our core technology, BUBL Tec, with which we can quickly create and brand custom BUBL Pods for specific products.

## BUBL PACKAGING

Transit damage affects 1 in 14 of all on – line purchases.

Our packaging provides maximum protection for your products and we have solutions for everything from mobile phones and TVs to rare wines and antiques – with everything in between.

Our products replace cardboard boxes, padded envelopes, void – fill and bubble wrap; they are simple and quick to use, dramatically reducing packing time compared to traditional packaging (typically by more than three quarters) – and dramatically reducing cost.

BUBL Packaging is environmentally friendly; all materials used are recyclable and most of our products are reusable.

Put simply, with BUBL Packaging transit damage is effectively eliminated and you save time and money – without harming the environment.

## ABOUT US

BUBL Packaging was formed, as BUBL Bag, in 2015 to provide better protection for goods in transit; since then the company has grown significantly and several new product lines have been introduced, creating packaging solutions for virtually every product type.

Our vision is to lead the way in packaging that provides highly effective protection for valuable and fragile goods, and that is recyclable, reusable and sustainable.

## CONTACT DETAILS

## VALUABLE FRAGILE IMPORTANT

“The BUBL Pod products we are using are great, far superior to other products we have used in the past. They are very easy to fill due to the one way valve and on previous products cells would burst when filling which is not a problem with the BUBL Pods. We will continue to use this product and BUBL Packaging provide an excellent service and rectify any problems immediately.”

**Tony Conroy, Operations Manager, RecycleIT**

“I would happily recommend BUBL Packaging to anyone. Everyone I speak to at the company is extremely helpful. The delivery is always on time which really helps us get on with our daily tasks. We are an online distributor of roof windows and we use BUBL Pods to wrap our windows; previously our transit damage rates were very high but now it is extremely rare that a window is damaged and that's down to the packaging. Thank you for such a great service and an equally great product.”

**James Fraser, Sales Manager, Yard Direct**
