

BUBL TUBES

PROTECTIVE PACKAGING SOLUTIONS

ULTIMATE PROTECTIVE PACKAGING FOR YOUR FRAGILE, VALUABLE AND IMPORTANT GOODS

BUBL TUBES

Ultimate protection for difficult to ship goods – whether they are large, heavy or just awkward – examples include windows, car doors, radiators, pumps, floor tiles and toilet cisterns. Fully customisable for length, film thickness and tube diameter and with optional branding, BUBL Tubes replace polystyrene blocks and pellets, EPS, Instapak, cardboard spacers and virtually all other heavy duty protective packaging products.

Super-strong BUBL Tubes enclose your products in air-filled tubes, keeping them totally safe in storage and in transit. They are fully recyclable, reusable and quick and simple to inflate and use.

BUBL Tubes can be inflated manually using compressed air or you can use our auto-inflation system.

BUBL TEC CUSTOM PACKAGING SOLUTIONS

Underpinning all our products is our core technology, BUBL Tec, with which we can quickly create and brand custom products to match your needs.

BUBL TUBES ITEM RANGE

BUBL Tubes are customisable, simply tell us your product's dimensions and weight. Tubes are 200mm – 1200mm in length, 40mm – 90mm in diameter and come in a range of film thicknesses up to 200 micron. They are supplied as a single roll of film and can be perforated or unperforated - just tear or cut to size.

BUBL PACKAGING

Transit damage affects 1 in 14 of all on-line purchases.

Our packaging provides maximum protection for your products and we have solutions for everything from mobile phones and TVs to rare wines and antiques – with everything in between.

Our products replace cardboard boxes, padded envelopes, void – fill and bubble wrap; they are simple and quick to use, dramatically reducing packing time compared to traditional packaging (typically by more than three quarters) – and dramatically reducing cost.

BUBL Packaging is environmentally friendly; all materials used are recyclable and most of our products are reusable.

Put simply, with BUBL Packaging transit damage is effectively eliminated and you save time and money – without harming the environment.

ABOUT US

BUBL Packaging was formed, as BUBL Bag, in 2015 to provide better protection for goods in transit; since then the company has grown significantly and several new product lines have been introduced, creating packaging solutions for virtually every product type.

Our vision is to lead the way in packaging that provides highly effective protection for valuable and fragile goods, and that is recyclable, reusable and sustainable.

CONTACT DETAILS

VALUABLE FRAGILE IMPORTANT

“ We switched from using Sealed Air Instapak to BUBL Tubes to improve the recyclability of our packaging and also achieved a massive reduction in our transit breakages. ”

Bathroom retailer – Lancashire, UK

“ Since switching to the BUBL Tubes we have made significant savings on product replacement costs due to reduced damages incurred in the courier network. This has also helped improve our customer satisfaction ratings. ”

Tile manufacturer – Devon, UK
